The Community College System of NH (CCSNH) has been awarded a $1.2 million grant from the U.S. Department of Labor Employment and Training Administration to enhance Registered Apprenticeship opportunities within the information technology, healthcare and advanced manufacturing sectors. This grant will support the development of new Registered Apprenticeship opportunities, provide funding for related instruction at NH’s community colleges, and support outreach to employers who wish to expand work-based learning at their sites.

Services will be coordinated with the WorkReadyNH program offered at NH’s community colleges, designed to help individuals build the soft skills employers identify as necessary to workplace success.
